Professional Summary

Full Stack Developer with 8+ years of experience building scalable web and mobile applications across JavaScript and PHP ecosystems. Expertise in modern frameworks (React, Next.js, Vue.js, Svelte), backend development (Node.js + Typescript, Laravel, WordPress), and real-time technologies (WebRTC, WebSockets). Proven track record in implementing AI integrations, automation workflows, and DevOps practices. Skilled at delivering end-to-end solutions from database architecture to deployment and CI/CD implementation.

Tech Stacks

- **Languages**
 - JavaScript, TypeScript, PHP, Bash/Shell Scripting, HTML5, CSS3, SQL, Python, C#, Elixir
- **Frontend Development**
 - React, Next.js, Vue.js, Svelte, SvelteKit | TailwindCSS, SCSS/SASS | Progressive Web Apps | Responsive Design
- **Backend Development**
 - Node.js: Express, Next.js API Routes, SvelteKit
 - PHP: Laravel, CodeIgniter, WordPress
 - RESTful APIs, GraphQL, WebRTC, WebSockets, Socket.IO, RTSP
- **Mobile Development**
 - React Native, Expo, Cordova, and Ionic
- **Databases**
 - MySQL, PostgreSQL, MongoDB, Firebase, Redis | Knex.js, Prisma ORM
- **DevOps & Infrastructure**
 - Cloud Platforms: AWS, DigitalOcean, Vultr
 - Web Servers: Nginx, Apache
 - Containerization: Docker, Kubernetes
 - CI/CD: GitHub Actions, CircleCI
 - Deployment: Coolify, Vercel, Netlify
 - Process Management: Docker, PM2
- **Automation & Integration**
 - n8n, Zapier, HubSpot | Webhook design and API integrations | Workflow automation
- **AI/ML Integration**
 - Claude API (Anthropic), ChatGPT API (OpenAI), SERP API, Gemini AI | Prompt engineering and LLM integration
- **Mobile Development**
 - React Native, Expo, Cordova, Ionic
- **Testing & Quality Assurance**
 - Jest, ESLint, Husky, Mocha, Lerna | Test-Driven Development
- **Tools & Libraries**
 - Task Queues: BullMQ, TaskForce | Browser Automation: Puppeteer, Playwright
- **Data Analytics & Visualization**
 - Metabase | Data visualization and business intelligence

Work Experience

April. 2024 – Present

Full Stack Javascript Developer

Studio Corsair | San Francisco, California (Remote) | <https://parakeet.chat> | <https://aifilter.email>

- Architected and deployed full-stack solutions for enterprise clients, implementing CI/CD pipelines with GitHub Actions and CircleCI to significantly reduce deployment time and ensure zero-downtime releases
- Led cross-functional collaboration to design, develop, and ship production features using ReactJS, ExpressJS, Node.js, and TypeScript, resulting in improved code maintainability and faster feature delivery
- Optimized application performance through code quality automation with ESLint and custom linting rules, significantly reducing bug reports and improving overall code consistency across teams
- Implemented robust task management systems using BullMQ and TaskForce to handle asynchronous processing, improving system reliability and reducing server load

Oct. 2023 – April 2024

IT Manager/Fullstack Developer

1001 Technology Solutions | Chiang Mai, Thailand (On-site) | <https://pickgoals.com>

- Drove technological alignment with business objectives by overseeing full-stack software development initiatives, resulting in measurable improvement in operational efficiency across multiple departments
- Delivered scalable enterprise solutions using ExpressJS, NodeJS, VueJS, ReactNative, and Expo to meet complex organizational requirements
- Managed development lifecycle for web and mobile applications using Laravel and Cordova, ensuring timely delivery of 15+ production features within 6-month period

May 2019–
Oct. 2023

Asst. IT Manager/Full Stack Application Developer

[Lihao International Ltd. Co](#) | [Sihanoukville, Cambodia \(On-site\)](#) | <https://lihao-international.com>

- Spearheaded development team in building comprehensive full-stack applications for web and mobile platforms using Express.JS, Node.JS, Vue.js, ReactJS, C#, and PHP frameworks (Laravel and CodeIgniter), serving 50,000+ registered users
- Designed and implemented cloud infrastructure including load balancers, CentOS server configurations, Apache, Nginx, and Reverse Proxy solutions, achieving 99.9% uptime
- Pioneered machine learning integration using TensorFlow and PyTorch for predictive analytics, significantly improving business intelligence capabilities and data-driven decision-making processes

Nov. 2018–
May 2019

Software Developer

[Saver6.com Inc.](#) | [Olongapo City, Philippines](#)

- Modernized legacy applications by migrating mobile apps to Expo.io, React Native, and ReactJS, and rebuilding web platforms using hybrid frameworks (Cordova and Ionic), resulting in significant performance improvement and enhanced user experience
- Enhanced application functionality by implementing modern JavaScript frameworks and libraries (Laravel), improving load times and increasing user engagement
- Optimized development workflow by introducing standardized coding practices and component-based architecture, reducing development time for new features

Feb. 2018–
Nov. 2018

Software Engineer II

[Cloudstaff Inc. & VAMP \(Client\)](#) | [Pasig City, Philippines](#) | <https://vamp.com>

- Developed high-impact influencer platform for major brands using full-stack technologies (Elixir Phoenix Framework for backend, EmberJS for frontend), facilitating influencer-brand connections that generated \$500K+ in campaign value
- Architected seamless API integrations with Instagram APIs to enable real-time connectivity and data synchronization, supporting 10,000+ influencer profiles
- Implemented robust data management systems ensuring accurate metrics tracking and reporting for campaign analytics, significantly improving data accuracy

May. 2017–
Feb. 2018

Full Stack PHP Developer

[iFormatLogic IT Solutions](#) | [Olongapo City, Philippines](#)

- Built and maintained enterprise web applications using WordPress, CodeIgniter, Magento, Laravel, and CSZCMS, delivering custom solutions for 20+ clients across diverse industries
- Collaborated with cross-functional teams to deliver comprehensive IT solutions, enhancing system functionality and achieving high client satisfaction
- Streamlined development processes by implementing reusable components and standardized frameworks, reducing project delivery time

Outside Projects

eGordonCollege

[Gordon College](#) | [Olongapo City](#) | 2017

ReactJS, ExpressJS (API), MySQL, Cordova

- Developed a progressive web application (PWA) learning management system (LMS) platform for online learning, also executable as a mobile app for iOS and Android.

GC CCS Dynamic Voting System

[Gordon College](#) | [Olongapo City](#) | 2016

ExpressJS, ReactJS, Socket.IO, MySQL

- Created a dynamic voting system for electing student council representatives, providing a user-friendly interface and secure vote tallying for the entire college.

ALCU Voting System

[Gordon College](#) | [Olongapo City](#) | 2016

ExpressJS, ReactJS, WebSocket, MySQL

- Developed an online voting system used during a pageant event to ensure secure and real-time vote counting and display.

Education

2013–2017

Bachelor of Science in Computer Science

4 years

[Gordon College](#) | [Olongapo City, Philippines](#)

2009–2013

Basic Education Curriculum

4 years

[Olongapo City National High School](#) | [Olongapo City, Philippines](#)

Certifications

- NCII – Computer Hardware Servicing
 - TESDA | 2016
- Proxor 3 Level Certification on Java
 - Proxor | 2015
